

# Rhythms

Last Updated Saturday, 22 March 2008

There are many different rhythms used in Greek songs, here are some of them. We decided to go with 5 minute version of each rhythm so that one can practice along with them. The rhythms are about 5mb each and will take some time to download if you are on a Dialup internet connection. If you have a broadband connection you shouldn't experience any problems.

NOTE: If you want to save the rhythms on your computer, just right click the downloadlink and select "save link as" We are working on more rhythms, give us some time...
